### eMove360° - Professional Magazine for Mobility 4.0

The eMove360° Magazine deals with detailed technical reports, scientific articles, news from the broad spectrum of electric and hybrid mobility as well as connected and autonomous driving. The focus is on innovations, products and prospects - highlighted as questions from management, politics and business. Material solutions for new mobility are also considered a constant feature. Readers of the magazine are eMove makers in the manufacturing industry, fleet management, research and development as well as trade and interested consumers. Through reports from all areas of Mobility 4.0, The eMove360° Magazine provides comprehensive knowledge, guidance and inspiration to executives, managers, developers, researchers and creators.
