

eMonday, the eMove360° Club's exclusive networking meeting, welcomes csi entwicklungstechnik GmbH as a new strategic partner.

- **eMonday, the widely recognized eMobility networking event, starts again in Munich on September 18th**
- **csi entwicklungstechnik GmbH is a new eMove360° Club Gold Company Member**

Munich, August 9, 2023 – Strategic partnership: eMove360° welcomes csi entwicklungstechnik GmbH as new eMove360° Club Gold Member and eMonday partner.

Cooperatively we will bring eMonday back onto Germany's eMobility agenda.

eMonday, the industry networking event for experts, users, and commercial e-mobility users, takes place in Munich on the 3rd Monday of each month. It is a top-class evening meeting of industry experts that has been taking place regularly since 2010.

"Thanks to eMonday, we effectively promote important topics related to electric & autonomous mobility. We introduce new technologies, create business opportunities, and share expert knowledge. We promote Munich's unique business opportunities, Germany as a location of ongoing innovation, and are working on a mobile future without sacrifices, but with CO₂ neutrality," says Robert Metzger, CEO & Publisher of MunichExpo Veranstaltungen GmbH, founder and host of eMonday and the eMove360° trade fair.

Our vision: 'We develop the future. Mobility. People.' The strategic partnership of eMove360° and csi entwicklungstechnik

will actively shape the future of mobility in a rapidly changing world.

In the age of electrification, you, as today's reader, are already a part of this dynamic movement.

eMonday: Only €40 participation fee per evening. eMove360° Club Members (€95 per year) get free access to all eMonday events and the trade fair.

The company csi, founded in 1995, has established itself as a leader in innovation, with around 600 employees and an impressive track record of successful industry projects. "With our broad expertise, from design to digitization and agile methodology, we drive innovation. The quality seal #MadeInGermany strengthens our position in an international network that ranges from large corporations to start-ups," says Managing Director Marco Schoppmann.

eMove360°, trade fair and as the host of the Future Mobility Conference, offers well-known exhibitors, experts, and speakers the opportunity to provide a comprehensive and up-to-date overview of the latest in charging & energy, battery technology, automated driving, and e-mobility in the commercial vehicle sector. eMove360° and csi look forward to advancing knowledge, technology, and cooperation in our industry.

About eMove360°

eMove360° is the leading trade fair for electric & autonomous mobility. The eMove360° Europe 2023 7th international trade fair for electric & autonomous mobility will be hosted from October 17th to 19th, 2023, at Messe München, Entrance East. It is the world's leading B2B and technology trade fair for electromobility and autonomous driving and is also dedicated to sustainable mobility solutions such as car sharing and intermodal mobility.

eMove360° offers various B2B platforms besides the trade fair as an annual industry meeting point. The eMove360° Award for electric & autonomous mobility. The MATERIALICA Design + Technology Award. eMove360° magazine with an additional online news portal. eMove360° Conferences and the eMove360° Club, and the eMonday network events. eMove360° sees itself as an umbrella brand for new mobility. An international marketplace that brings together supply and demand on a global level.

The trade fair focuses on vehicles (electric, connected, autonomous), charging & energy, infotainment & connectivity, automated driving & electronics, battery & powertrain, mobility concepts & services, urban & mobile design, and materials & engineering. Around 45% of international visitors and 52% of the approximately 300 exhibitors with a company headquarters

outside Germany demonstrate the international leadership role of eMove360° for the mobility of the future. Visitor target groups at the B2B trade fair are developers, designers, IT experts from the major automotive OEMs and TIER1 suppliers, buyers, and users, such as fleet managers, local administration, communities, hotels, and tourism and service providers.
